PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4.5 years of experience designing and building scalable, high-performance web applications across fintech, e-commerce, and real-time systems. Specialized in React, Next.js, Angular, Node.js and Java Spring Boot with strong expertise in microservices architecture, REST APIs, and production-grade system design. Experienced in end-to-end delivery including development, CI/CD pipelines, cloud deployments, and production support. Actively incorporates AI-assisted development tools to accelerate debugging, refactoring, and development workflows while maintaining code quality and performance.

SKILLS

Programming Languages:

JavaScript, Typescript,
Java(v8,v16,v21), Python

Web Development: React,
Next.js, Angular(v13,v16), Node.js,
Tailwind CSS, Spring Boot

Databases: SQL Server, MySQL,
PostgreSQL, Firebase, MongoDB,
PL/SQL

Data Analytics: PowerBI, Tableau

Tools & Collaboration: Git,
Bitbucket, Postman, Agile
Methodologies

Additional Skills: Microservices,
Docker, Unit Testing, Cloud
Orchestration, CI/CD, DevOps

Soft Skills: Collaboration,
Communication, Problem-solving,
Adaptability, Team Leadership

EXPERIENCE

Full Stack Developer, Kief Consultancy and Technology, Abu Dhabi
December 2024 - Present

- Led the migration of the web application from **Angular 13** to 16 to implement modern reactive patterns and improve core performance.
- Architected modular, scalable interfaces using **Next.js** and **React**, establishing the foundation for **digital wallets**, **split payments**, and real-time financial dashboards.
- Developed a specialized **Node.js** event-driven system to manage complex, asynchronous user agreements and state transitions for vendor agreements and contracts.
- Bridged the gap between UI and backend by overseeing the integration of **Spring Boot microservices** for P2P transfers and high-volume transaction processing.
- Managed the team's PR workflow, enforcing strict **code quality** standards and mentoring junior developers on best practices in TypeScript and **clean architecture**.
- Built high-end data visualizations using **Three.js** and **GSAP**, delivering interactive 3D landing pages.
- Optimized development velocity by integrating **Claude Code** into the team's workflow and managing end-to-end **CI/CD** pipelines in **Azure DevOps**.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Google Data Analytics Professional

ACHIEVEMENTS

Recognition for volunteering in **RDPMS**(Remote Diagnostic & Predictive Maintenance System) **Analytics Project** associated with Indian Railways

Software Engineer, Gadgeon Smart Systems Pvt. Ltd.
July 2021 - October 2024

- Developed **document upload and parsing workflows** using Angular integrated with backend Java Spring Boot services for validation, metadata extraction, and asynchronous processing.
- Implemented **responsive WooCommerce storefronts** with seamless UI/UX, integrating backend services for secure e-commerce transactions.
- Engineered scalable and secure backend systems using **Java Spring Boot**, enabling seamless integration across **POS, ERP, and B2B Webshop** systems.
- Leveraged **AWS S3** for cloud-native file storage, including automated backup, archival, and retrieval pipelines.
- Designed and optimized relational database schemas (MySQL / SQL Server) for high-volume transactional data.
- Took **end-to-end ownership of production systems**, including monitoring, bug fixes, performance tuning, and ensuring smooth real-time frontend-backend interactions.

EDUCATION

Bachelor of Technology in Computer Science And Engineering
June 2017 -May 2021

APJ Abdul Kalam Technological University, Kerala, India

CGPA 9.76/10
